About Me

Hi, I am Hossein. I'm always willing to try new things. Have many creative abilities to surprise anyone. I have the ability to manage unforeseen problems.

Work Experiences

Changesh Kon

UI / UX Designer | 6 months

A platform where goods can be exchanged without paying money.

Market Orient

UI / UX Designer | Project

Market orientation is an approach to business that prioritizes identifying the needs and desires of consumers and creating products and services that satisfy them. Companies that have a market orientation consider the opinions and needs of their target market as a critical component of their research and development (R&D) for new products.

Bitex

UI / UX Designer | Project

Developer of cryptocurrency trading platform designed to ensure transactions, while keeping customer data and funds secured. The company's platform can be used to trade several crypto assets to banking and financial channels that have the availability of liquidity, enabling clients to store digital assets safely in cold storage or the bank's vault.
