Professional Summary

Dedicated Job Title known for streamlining Python development processes by exploiting open-source web frameworks. Specializes in applying Django to complex database assets with strong web presences. Comfortable taking over ongoing administration processes or designing customized administration models. Eager Python Django developer with Number years exploiting model-template-view architectural pattern of Django framework to shorten development times and reduce design costs. Specializes in creating accessible, data-driven web assets. Keen to apply expansive development knowledge to deliver fast, efficient Type projects. Complex problem-solver with analytical and driven mindset. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code. Respectful self-motivator gifted at finding reliable solutions for software issues. Experienced in Task and Task and offering skills in Skill and Skill. Fluent in Language and accustomed to working with cross-cultural, global teams. Organized and dependable candidate successful at managing multiple priorities with a positive attitude. Willingness to take on added responsibilities to meet team goals. Hardworking and passionate job seeker with strong organizational skills eager to secure entry-level Job Title position. Ready to help team achieve company goals. Detail-oriented team player with strong organizational skills. Ability to handle multiple projects simultaneously with a high degree of accuracy. To seek and maintain full-time position that offers professional challenges utilizing interpersonal skills, excellent time management and problem-solving skills.

Skills

- Android Software Development
- Engineering Standards
- HTML and XML
- Portable Code Writer
- Embedded Systems Development Software
- Python Django
- Web Programming
- System Design
- Database Management
- Project Planning
- Scripting Languages: PHP, Python, JavaScript
- Python
- Django
- Numpy
- Pandas
- Matplotlib
- Machine learning development
- Ai development
- Deep learning development
- Html & Css

Python Developer, 07/2015 - Current
Machine Learning Lab, UESTC – New York City

🔴 python developer
🔴web engineer
🔴 Library: numpy, matplotlib, Pandas,pygame,skatpy, Django,...
🔴ml developer
🔴dl developer
🔴Ai Scientist

- Stayed current on developments in related Python frameworks.
- Worked independently to design, develop and test code.
- Collaborated with quality assurance team to verify correct implementation of software development changes.
- Followed best practices with code development, maintenance and testing to improve solution design.
- Integrated Java-based web services into database management projects using Python.
- Worked with security team to determine compliance of the complete system.
- Identified possible system enhancements to improving functionality and streamline administration.
- Led Scrum development practices to maintain on-time milestone achievement.
- Collaborated closely with team to create story points and sprint planning.
- Translated business requirements into logical and physical file structure designs.
- Partnered with leads and architects to establish technical vision and deliver consistent, scalable capabilities.
- Translated technical information to non-technical terminology for team members and stakeholders.
- Assessed clients' enterprise IT environments to facilitate data integration on traditional and Hadoop environments.
- Engineered software within service-oriented architecture.
- Designed web-based assets for deployment on cloud computing platforms.
- Enhanced business drivers with enterprise-scale applications, enabling visualization, consumption and monetization of both structured and unstructured data.
- Used Nifi and Python to create data flows and transformations.
- Generated workflow reports to test proposed change executions.
- Applied change control best practices for software enhancements to minimize end-user disruptions.
- Monitored and maintained operational readiness of middleware applications.
