**The path to quality products**

## About Us

Chemxo Trading FZE is a global trading company located in Dubai, UAE. We offer various raw materials used in multiple industries, including lubricant, petrochemical, paint and coating, food, personal care, and cosmetics. Our diverse portfolio of products and reliable services effectively meets the increasing and diversified demands of the market.

In addition to supplying top-quality products from well-regarded international manufacturers, we also support our clients by focusing on their upcoming requirements and promptly developing new products and solutions to address their challenges and needs. Our team of dedicated professionals and experts assist our clients in manufacturing high-performance finished products, meeting and exceeding the latest international standards specifications. Chemxo, as an innovative partner, is here to support you all the way.

## Our Objectives

As a customer-focused company, Chemxo's main objective is to improve customer satisfaction continually and always aim to meet our customers' requirements. Our dedicated team works with our customers to ensure Chemxo delivers products based on their needs and requirements.

Through the support of our customers and our strong team, we aim to continue to grow Chemxo and expand not only our product portfolio but also the countries that we supply. With our robust supply chain, we can deliver our products to every corner of the globe and anticipate increasing our output over the coming years.

## Our Facilities

We have advanced warehousing facilities strategically located in the Jebel Ali Free Zone. Thanks to these modern facilities, and a strong distribution network spanning the entire Arabian Peninsula and Jebel Ali port, we have easy access to almost all industrial ports in the world. Therefore, Chemxo can provide its clients immediate access to a wide range of high-quality raw materials.

# OUR PRODUCTS

**Cocoa Powder** is one of the most popular flavours in the food industry that adds deep chocolate flavour to desserts and beverages. In the food industry, many cocoa powders are used to make ice cream, chocolate, cakes, cookies, wafers, biscuits, and drinks. These items make up a substantial portion of the countries' food industry.

Chemxo supplies nutrient-rich cocoa powder with excellent flavour to enhance the taste of products and increase their nutritional value.

**Cocoa Butter Substitute (CBS)** is an affordable substitute for expensive cocoa butter for all applications. CBS is widely used in making confectionery, bakery coatings, compound chocolates, fillings and centres for biscuits, caramels, nougat, and dairy fat substitutes in cheese analogues. Chemxo offers high-quality CBS that features a steep melting profile with excellent mouthfeel without the feeling of wax.

**Carboxymethylcellulose (CMC)** known as Cellulose Gum, is a multifunctional food ingredient used as a thickener, binder, emulsifier, and stabilizer in various applications. It is widely used in ice cream (to resist melting), sweets, biscuits, cakes, cookies, candies, juice, liquid beverages, dairy products, meat products, frozen foods, instant pasta, and canned fruit compotes. We supply CMC with outstanding quality that imparts excellent properties to your products to increase their shelf life and provide desired texture.

**Lecithin** is an essential additive in food production that provides multiple functions. It acts as an emulsifier, wetting agent, release agent, and crystallization control. Lecithin is used in chocolate and confectionery, ice cream, dairy, instant products, and margarine. We offer high-quality Lecithin that effectively improves the texture and shelf-stability of food products.
